

First College
LINCS

What THEY say...

"The Ethos here at Sunnyside up is to support our local community, most of our products are either home grown or sourced locally, it's great to work with a local, flexible work based training provider and it's always nice to know that the assessors have the best interest of our staff at heart."

- Hazel Hammond (Owner)

"I don't think I would have got back into learning if it wasn't for Alison coming to my work place to support my learning. My role is varied now as I help in the kitchen, take payments and sometimes I get involved in the Farm Shop."

- Jess Wright (Learner)

www.sunnyside-up.co.uk

"Prior to starting her apprenticeship with us Jess was worried about fitting everything around her job and didn't want to spend time in College. I was able to reassure her that assessments would be carried out in the work place, with a little theory in her own time. Her confidence and skills improved no end as she became involved all areas of the Farm Shop, resulting in a well-rounded Apprenticeship."

- Alison Cartwright (Hospitality Assessor)
